Passion, attention to new trends, continuous research for innovative solutions. An experience started more than 35 years ago. Thanks to these distinguishing elements, Apell managed to strengthen its presence in the market, providing its Partners with increasingly new and reliable solutions.

Stainless steel as the unquestioned protagonist of our products. Our experience with this metal has allowed us to gain precious knowledge that is currently one of our strengths. Recently, we started combining steel with trendy glass surfaces, coming in several shades, that perfectly match our typical features in terms of cleaning, hygiene, design and elegance.

Turning the kitchen sink into an original and exclusive product, able to combine elegance and modern design with easy cleaning for daily use

International designers have contributed to turn some of our products into real icons, receiving prestigious awards.
